Coronavirus Action: SAVE LIVES in vulnerable communities

Help NOW to stop the spread of COVID 19, and protect lives around the world, from your own home.

Education Saves Lives has created a **simple, interactive, FREE online lesson** to explain the advice from the World Health Organisation. It is translated into local languages so that **everyone** can access this vital, life-saving information.

For more information see: https://educationsaveslives.org

The lesson:

- Is streamed from the website (not downloadable)
- Has an optional quiz at the end to reinforce what has been learned
- Lasts about 20 minutes
- Is FREE to use (apart from data costs)

It explains:

- What coronavirus is, and how it is spread
- How to reduce the risk of infection
- When medical help should be sought, and the importance of listening to local advice
- Some of the myths around the virus

How you can help to save lives

YOU can help give as many people as possible the opportunity to see this lesson simply by:

- Researching organisations who might be able to use or share the lesson
- Making a list of the organisations you find
- Passing the list on to us

We will then send an email to the organisation informing them of the lesson and how they can access it.

That's it.....simple but effective!

Registered charity number: 1080131 Limited company number: 3921677

Coronavirus Action:

SAVE LIVES in vulnerable communities

Sign up

Contact Rachel to sign up. She'll tell you which city or regional hub we'd like you to research; if you have a special interest or knowledge of a place please let her know.

Email: rachel.butt@educationsaveslives.org

phone: +44 1926 422711 mobile/WhatsApp: +44 7766 764604

The task

- 1. Use the internet to find schools, community organisations, other service providers etc who might be able to use or share the lesson in the place that you've been allocated
- 2. Make a list of the organisations you find, (key information and contact details) in a simple online spreadsheet that we'll give you (like this template)
- 3. Pass it back to Rachel and the Education Saves Lives team and we will send a simple introductory email to offer the lesson to the organisations

The organisations

The sorts of organisations you'll be looking for include (but are not limited to):

- Public health, other governmental health bodies
- Schools, nurseries, orphanages, groups for streetchildren
- Grassroots community groups, e.g. organisations providing local services such as food distribution/training/other support to their community
- Local partners of larger NGOs eg OXFAM or Tearfund
- Co-operatives or other similar networks

Keywords for searching

Suggested keywords to copy and paste to get you started with an online search:

City you are searching in				
community group	community development	community help	social centre	social responsibility
school	nursery	orphanage	street children	kids club
healthcare	health hub	public health	ministry of health	health centre
society	care	compassion	needy	action

Use the name of the place you've been allocated with a combination of other words eg Mumbai schools, Lagos healthcare, community care Dar es Salaam.

- You can find tips on effective searching here
- Please see our website for the most up to date list of languages available
- Please contact Rachel (details at top of page) if you need any advice
